## Horse Trailer Manufacturer Award Goes To Sundowner Trailers

Sundowner has long been recognized as the innovator in trailer development and the industry leader among horse trailer manufacturers. Once again they received the award for the Largest # of New Trailer Registrations for Horse Trailers in 2015. The award was announced at the National Association of Trailer Manufacturers' NATM show. They were selected from the top 20 manufacturers. The time period used to select the winners was January – November 2015 and the data was compiled by Statistical Surveys.

National Sales Director, Judson Pigg commented "Because for forty years Sundowner Trailers pioneered innovation and responded to the input of owners and dealers, we continue to lead the market in both quality and quantity. None of this would have been possible without a strong dealer body that knows what their customers need and want. Sundowner Trailers has taken this same responsive approach to developing all of our trailer lines including livestock, commercial cargo, toy haulers, car haulers and sport utility trailers including those with our living quarters."
