# Sundowner **PRO-GRADE** TOY HAULER

## The Perfect Fit Makes Sundowner's 2286GM Toy Hauler Super Popular

Coleman, OK --- As the interest in Sundowner Pro-Grade Toy Haulers continues to soar, the 2286GM model has proven to be one of the most popular. The 22 foot living area has a full kitchen and a nice sized bathroom with a round shower and major wardrobe closet. The 16 foot garage area works well for hauling toys . . . bikes, motorcycles, cars, ATVs, side by sides. Owners can also add footage to the garage area to accommodate even larger toys. And as with all Sundowner trailers customization is invited with experts on hand to help with unique needs and designs.

The full length of a standard 2286GM is 38 feet and it is seven and a half feet tall. This size has been very popular as it is easy to get in and out of even tight spots. Owners appreciate the lower load heights and considerably less wind drag with Sundowner's Toy Haulers and like with all Sundowners it is easy to tow.

Their superior structural integrity has also been recognized. Built with all aluminum construction, Sundowner's Pro-Grade Toy Hauler features full-length 24" extruded aluminum sides and .050 aluminum skin, plus 4" aluminum floor I-beams on 12" centers and 2" aluminum tubing wall uprights—all topped off with a full-length seamless aluminum skin roof. And everything is covered by Sundowner's 36-Month Hitch-To-Bumper Warranty and 8-Year Structural Warranty.

For more information on Sundowner's Pro-Grade Toy Hauler go on line at [www.sundownertrailer.com](http://www.sundownertrailer.com), email [info@sundownertrailers.net](mailto:info@sundownertrailers.net) or call 800-438-4294.
