

The MC12 utility trailer from Sundowner combines the popular utility model and the car hauler model to bring you a trailer fit specifically for your motorcycle hauling needs. The protective air dam shields your bike from rock and road debris while the wheel chocks maintain your load position. This 6'9" wide, all aluminum trailer is 12ft long with a heavy duty 48" utility ramp. The 2 treadplate ramp strips ensure safe loading and unloading with ease. Flip the LED load light that's mounted on the back of the 10" bump rail so you can see to secure your bike after your ride. This package can be tailored to fit your needs or painted to match your bike; we encourage customization!

MC12
